Atonal Metal Licks - Level 21

Lets take a look at playing over an E note played in 8ths. Take the E minor pentaonic on the 12th fret. Lets take the B note on the 12th fret of the B string. Now before you play the B note play the note a semi tone (the next fret) up from it which in this case is a C note.

Try this lick;

```
E|-----|
B|13-12-----|
G|---14-12-----|
D|-----|
A|-----|
E|-----|
```

You can do this with all the notes in the scale so try this

```
E|-----13-12-----|
B|15>17-----13-12-----|
G|-----13-12-----|
D|-----12-14-----|
A|-----|
E|-----|
```

This technique can also be applied to chords. Take the E power chord on the 7th fret of the A string and try this;

```
E|-----|
B|-----|
G|-----|
D|-----9-----10-9-10-----| x4
A|-----7-8-7-8-----|
E|0-0-0-0-----|
```

Homework;

Take a solo you know and try it on one or 2 notes play the note 1 above - the upper neighbour.
