Def Tones - Sex Tape - L8

Although this song is played in a drop C tuning we are showing our version of standard tuning and we have also played it in the C key so you can play along with the track. There is lots of delay on the guitar to get that 'U2' feel on the intro. Try the .8th note setting on your delay pedal for this.

There are 2 guitarists on this with some overdubs, but we have tried to give you the overall feel of the track so some differences will be heard.

Intro

```
E|-----| Played as an arpeggio.
