Get It On - Trex - L14

Fun song to play, with a twist on a twelve bar blues. When playing the B&E strings together we tend to hold the E open chord, which helps not only to dampen the non playing strings, but also leaves you ready to play the chord later on in the lick. Suggest you listen to Mark Bolan (Trex front man) playing this to get an idea of the rhythm of the song, as its slightly unorthodox in the timing.
