Head Over Heals - Tears For Fears - L24

80's pop legends Tears For Fears wrote some amazing songs throughout their career and this is one that was also in the movie 'Donnie Darko'. The song is mainly played on piano so we have made figured the main sections out on guitar for you to play. The intro is basically a C & D chord with a melody over it. Try and hold these chords whilst playing the melody.

Intro

E|3—2-0---0---3-2-0--0-----| Let the 'C' chord ring under the melody notes. You can either use your
 B|1-----3---1-----3--1-----| pinkie on the 3rd and 2nd fret or move your middle finger down.
 G|0-----|
 D|2-----|
 A|3-----|
 E|-----|

E|3—2-0--0---3-2-0---0-----| Again the D chord should ring under the melody, however on the C note
 B|3-----3---1-----3---1---| (first fret of the B string) you will have to move your index finger here
 G|2-----| so it will stop the D from ringing, however it still sounds fine like this.
 D|0-----|
 A|-----|
 E|-----|

Repeat above 4 times
