Lady - Modjo - L8

Big disco hit from 2013. The guitar is deceptively difficult if played correctly. The first part of the strumming lick is played on the 2nd beat of the barre - best listen to the track and count the beat to hear this. The second shape can be played simply as we tabbed it or with the funky up, down, up down - again listen to the song to get to grips with this. The good thing is, it doesn't change throughout the song, so once you have learnt this section that's it. Picture shows the fingering for the first chord. Suggest you barre across the 6th fret from the A string down as shown.

```
E|8--9-----8--9-----8--9--|
B|6--6-----7--7-----7--7--|
G|6--6--(x4)--6--6--(x2)--8--8--|
D|8--8-----8--8-----6--6--|
A|-----|
E|-----|
```

Repeat until the end of the song.
