

## Layla - Eric Clapton - L24

The classic opening riffs of Eric's hit Layla. Use hammer on's and pull offs on the open A string section then up at the 10<sup>th</sup> fret on the start of the lead section. The song eventually changes key so the half step bend at the end is to take it to the key of C#

```

*Homework;*

*Take it slow to begin with. Build the pace up gradually until you can play it at the same speed as the song.*
