Love Like Blood - Killing Joke - L12.

Classic track from band Killing Joke. The track was recorded 2 steps down so in theory an E chord sounds like a D chord. You do this by tuning your strings to D, G, C, F, A, & D - however we have tabbed this in normal tuning. Guitarist Geordie Walker loves to use open bodied guitars and plenty of distortion and compression on a loud amp. This song should be relatively easy to play, however there are some dis-ordinate chords that keep you on your toes and interesting timing..
