Minnie The Moocher - Cab Calloway - L12

Great jazzy sounding song from the Blues Brothers movie. Its got a fun chorus where the audience can repeat back the words. Its all about the laid back feel to the shuffle rhythm that's played in the verse and then this is contrasted by the upbeat chorus. Have a listen to the track on You Tube and get a feel for the song before attempting it.

Try adding some pentatonic licks to the Em in the verse so spice up the song.
