Money For Nothing - Dire Straits - L26

80's/90's mega group Dire Straits headed up by super guitarist Mark Knopfler. Mark was very much a finger picker, with a country twang, however on this track he crossed over into rock with an amazing lick that's played throughout most of the verse. Throw down your pick and use your thumb and index finger to pick the 2 strings together. Use an overdriven sound and turn your tone down to around 5 or 6 to get the same tone.
