Rebel Yell - Billy Idol - L12

Top 80's rock song from Billy Idol featuring his incredible guitarist 'Steve Stephens'. Steve has a cranked up, compressed sound with a high output pickup to get those additional nounces like pinch harmonics and pick slides.

The intro/outro he does with his thumb on the bass notes and his index and middle finger pulling at the B & high E. He puts his pick between his index and middle finger ready for the chords. Suggest you practice each part independently before you put them together.
