Great fun and simple to play track by the band The Jam fronted by the legend Paul Weller. Only 4 chords on this one. See below for some rhythm tips but initially start off with 4 down strokes on each chord.

```
   G Em      Am7 F7
E|3--0-------|-0--0----------|
B|3--0-------|-1---1----------|
G|0—0-(x5)-|-0--2-(x2)----| x2
D|0--2------|--2--3----------|
A|2--2------|--0-------------|
E|3—0------|-----------------|

   G Em      Am7 F7
E|3--0-------|-0--0----------|
B|3--0-------|-1---1----------|
G|0--0-(x4)-|-0--2----------|
D|0--2------|--2--3----------|
A|2--2------|--0-------------|
E|3--0------|-----------------|
```

***Rhythm**:*

The simple way is 4 downstroke per chord, however when Paul Wellar plays it he adds a 16th beat to the first strum of the G chord every time he plays it and occasionally the same to the Am7. The way to get a 16th zythum is if you count in 1 & 2 & 3 & 4 &, and then on the very first 1 & put another strum in the middle that will give you a 16th – you will need to play it Down, Up, Down to give you the speed.
